## DEDICATION

This is dedicated to the brave men and women in the service of their country. Their history cannot yet be written. Their great deeds are countless. For thousands of years people have striven for liberty. They are fighting for it and for us.

*"All honor to their names."*

## PREFACE TO SECOND PRINTING

"To be the first—that is the idea. To do something, say something, see something before *anybody* else—these are the things that confer a pleasure compared with which other pleasures are tame and commonplace, other ecstasies cheap and trivial."

—MARK TWAIN, "The Innocents Abroad"

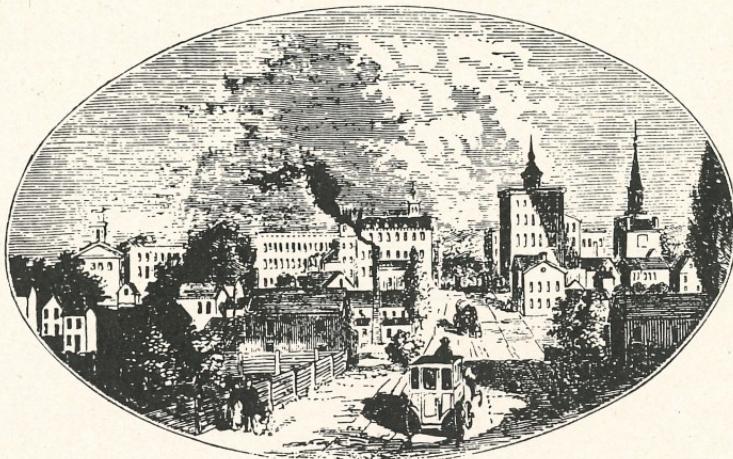

It is a pleasure to have written the first booklet of the great people and places of McLean County. We hope its incompleteness will inspire you to think of other people just as worthy as those listed and recall other places.

It has already justified itself in the interest aroused. Wesleyan through Lyle Straight is preparing a series of weekly articles in the school paper with this as a help. The Normal School system through Monroe Melton is to use it as a reference work. Our County Superintendent of Schools "Hap" Arends is using it as a reference for a more pretentious work. President Fairchild of I.S.N.U. has helped. A great many of the teachers of the city schools, as well as the County Schools, are finding it a help in stimulating interest in history. Its purpose is to arouse interest in history and our County. Until this was published by the Society there was no ready reference. It has already inspired a book of local history for school use as well as general interest which we hope will be completed. The fact that almost 3,000 copies will soon be disbursed is sufficient reason for this second printing.

To the loyal friends of the Society and to as fine a Board of Directors and officers as it has ever been our pleasure to know we may offer our thanks for its publication.

BLOOMINGTON, beautifully situated on the line of the Illinois Central Railroad, is 61 miles N. E. from Springfield, and 128 S. W. from Chicago. It is regularly laid out on an undulating surface, giving a fine prospect of the fertile prairie lands in the vicinity. The city is generally very neatly

built, having the appearance of thrift and prosperity, and some of the buildings near the public square, are magnificent in their appearance. This place contains the State Normal University, the Illinois Wesleyan University, two female seminaries, several banks, 11 churches, various manufacturing establishments, and a population of about 8,000.

The first settler and father of the town, was John Allin, a native of North Carolina, who was raised in Ohio, Kentucky and Indiana, he having lived, in the early period of his life in each of those states. He was at first attracted to this spot by the extreme beauty of the groves. Being acquainted with the geography of the country, he found it was on a direct line from the foot of the rapids of the Illinois, near La Salle to Cairo, also from Chicago to Alton and St. Louis. These considerations induced him to locate himself on this point, believing it was destined to become one of importance. It was for a period called *Blooming Grove*, and from this circumstance Mr. Allin gave it its present name. This section of country appears to have been a favorite spot with the Indians. Mr. A. states that he had seen the signs or remains of 30 Indian villages, within a compass of 30 miles around Bloomington. At the time of his arrival, two tribes, the Kickapoos and Delawares, lived within some 15 or 20 miles. The Kickapoos were 5 or 600; the Delawares were about half that number. The Kickapoos left in 1832.

Mr. Allin came in 1829, and erected his log cabin on the edge of the timber opposite where the First Presbyterian Church now stands.

(Of course Mr. Allin was James Allin.—Editor's Note.)

If therefore you will be so kind as to sign the authority below, and send it to me, by return mail, I shall be greatly obliged, and will be careful that you shall not be involved, or your rights invaded by it.

The Billy the Barber alluded to in this letter, was an old colored man who lived here a barber by profession. He also played the flute at the evening entertainments - In those days our music on such occasions was the Flute Piano Violin or harp & Billy often played or served on the table at my mother's home entertainments - My Father in connection with Allen & Giddley laid off an addition to Bloomington - He gave Billy two lots in consideration that he shaved him during his life time, which Billy did. And he also shaved him at the time of his death, which failed to have his deed recorded & lost it - a fact he did not discover until after the death of my Father. He then got Mr Lincoln to get one other - This was the predecessor to one of my Father's Estates - The widow of old Billy sold the lots some years after his death for \$2500. Because of interest in Sarah Bush Lincoln and Thomas Lincoln the step-mother and father of Abraham Lincoln as reflected by the February 1945 article in the Reader's Digest, Mr. Williams has suggested that McLean county should have the credit for the marking of the Thomas Lincoln trail and the erection of the monument over their graves at Shiloh Cemetery near Mattoon and has asked that a word be included about it. The book "Lincoln Traveled This Way" by Holmes; the Journal of the Illinois State Historical Society, April 1924 and the Illinois Central Railway Magazine for February 1927 have detailed accounts. When Wayne C. Townley went to Mattoon in 1923 there was no trail marked and there had never been a monument over her grave and the one over his was not in keeping with the son's place in history. He urged the Mattoon Lions Club to mark the Trail which it soon did. He then made a written contract with the cemetery trustees, agreeing to raise the funds for a monument. As District Governor of the Lions of the State of Illinois, he spoke to every club in the state and in less than a year had raised \$3,000 through their whole hearted cooperation. The dedication was May 16, 1924 at which time Governor Lowden, Doctor William E. Barton, and Judge Garner delivered the addresses with Mr. Townley presiding. The projects were conceived in Bloomington and carried out from Bloomington and as such McLean county is entitled to that credit.
